IconiQ 2025 Annual Tax Statement Guide

This guide provides general information only and is not intended to represent taxation, investment or professional advice. It provides a general reference for the Tax Statement report to the ATO tax return labels for individuals only (as does the tax statement itself).

Please refer to your tax adviser if you have a trust, self-managed super fund or company account, if you have been a non-resident for tax purposes if you hold additional assets which are not part of this reported portfolio

NCMI amounts reported are based on information made available and provided by managed investment trusts.

In addition, if you have any further questions in relation to your tax return the general information presented in this guide or the reference to the ATO labels, you should seek professional tax advice.

There are 8 main parts to the summary section of the Annual Tax Statement report:

1. Australian Income (Non-primary production),
2. Australian Income (Primary production),
3. Foreign Income,
4. Other Income,
5. Tax Offsets,
6. Deductions,
7. Capital Gains / Losses and
8. Non-Assessable Income.

The remainder of the Tax Statement has the detail supporting the summary section of the report.

Capital Gains and Losses

Capital loss is the current year capital loss from disposal of assets, prior to the offset of any capital gains.

In the calculation of net capital gains, where there are capital losses, these losses have been firstly offset against other capital gains, then index capital gains then lastly against the gross up discounted capital gains.

Where you have disposed of investments during the year, IconIQ automatically calculates capital gains tax using the default Minimum gain parcel allocation method. That means we first sell the parcels that are estimated to generate the lowest capital gain or highest capital loss for your account. Your adviser may elect a different parcel allocation method for your account.
